

# Logistics Sourcing with Archlet

www.archlet.com

Streamline & automate your Ocean, Air, Road, and Rail Freight RFPs with Archlet.

## Unlock AI-powered eSourcing for Logistics.

Freight procurement is known for its complexity - with countless lanes, volatile rates, disruptions, and capacity limitations making decisions harder than they should be. Traditional tools and Excel spreadsheets fall short. Archlet streamlines logistics sourcing across all transport modes

- ✓ Capacity constraints for FTL/LTL, FCL/LCL
- ✓ Lead & transit times
- ✓ Service levels & carrier preferences

with intuitive workflows, powerful optimization, and scenario analysis - so you can move faster and make smarter decisions with confidence. Archlet lets you handle logistics events of any size or type - from high-volume annual bids to quick-turn spot buying - while factoring in:

- ✓ Intermodal & alternative bids
- ✓ Index prices from Xeneta, etc.
- ✓ CO2 emissions

## Ground, Ocean, Air - we've got you covered.

Archlet simplifies end-to-end logistics sourcing - across ground, ocean, and air - by enabling smarter decisions, faster execution, and better outcomes through real-time insights and sourcing optimization.

Road Freight	Ocean Freight	Intermodal	Fulfilment	Warehousing
Air Freight	Rail Freight	Pallets	Parcels	Truck Leasing

## Drive results across your sourcing KPIs in weeks.

Archlet makes freight sourcing easy, intelligent, and fast - with no-code setup, advanced optimization, and seamless scalability from spot buys to global strategic RFPs.

## About Archlet

Archlet, a fast-growing Zurich-based company with offices in Spain and the US, helps global leaders like PepsiCo, Walmart, and Bosch streamline logistics sourcing, cut RFP cycle times, and boost savings.

Together with Xeneta, the leader in real-time freight rate benchmarking, Archlet now enables procurement teams to instantly compare supplier bids with market rates, automate analysis, and make faster, smarter decisions across ocean, air, and road freight.

 **eSourcing**

- ✓ RFP, RFI, RFQ Management
